

Herzing University Licensure/Certification Disclosures

Herzing University is working toward confirming state-level authorization of its professional licensure or certification programs in all states and territories. If you are planning to apply for licensure in a state other than where the program is offered, contact that state's appropriate licensing board to determine whether the Herzing University program meets licensure and/or certification requirements in that state. State contact information may be found by program in the links below.

Herzing University is required to notify you if your program curriculum meets licensure or certification requirements by state. Specifically, we must stipulate one of the following: 1) the program meets state licensing requirements; 2) the program does not meet state licensing requirements; or 3) a determination not yet been made if the program meets state licensure or certification requirements. This information is depicted below by code: **green M** = meets requirements; **yellow DM** = does not meet requirements; **white ND** = no determination has been made.
