INSTITUTIONAL AID

Herzing University offers institutional scholarships and grants designed to benefit students that do not have to be repaid. Herzing University is proud to offer the Herzing Financial Responsibility Grant (FRG).

- Under FRG, Herzing will match up to \$1000 of out-of-pocket payments made towards your tuition charges!

How can you make out-of-pocket payments under FRG?

There are several options for making a payment towards your tuition:

- **Down payment or deposit.** If you or a family member have saved money for your education, you can make that as a one-time payment, or you may choose to spread your payments throughout your program. There is no interest on these payments, and they count towards your FRG eligibility.
- **Monthly payments.** This is another interest-free option for paying tuition and fees. The payment has a flexible due date and counts as payments made towards your FRG eligibility.

Financial Responsibility Grant Advantages

- ✓ Your payments would be reducing your student loan debt.
- ✓ Monthly payments are interest free, whereas some student loans have interest that you could be responsible to pay over the life of the loan and may add to your principle balance if not paid.
- ✓ Though you would make payments on the front end or throughout your program, the FRG would pay a portion of your tuition in your last semester – limiting stressors before graduation.

SELF-PAY AND FEDERAL WORK STUDY

- Consider using money saved or earned to reduce or eliminate borrowing!

Remember, money that you do not borrow is money that you do not have to pay back.

FEDERAL WORK-STUDY

Federal Work-Study (FWS) provides part-time employment to students with financial need while enrolled. This allows for students to earn money to help pay for college expenses. FWS are jobs related to your desired field and are on and off campus. To be considered for FWS, complete the FAFSA!

SELF-PAY

Here are additional options for self-pay:

option
1

Have you considered a payment plan? Herzing's payment plans are typically interest free, so your full payment is credited towards your Herzing charges. You may elect to pay more than the required amount, and there is no fee for prepayment or early payoff.

Payments can be made at secure.herzing.edu by logging in each month and scheduling one-time payments or by setting up a recurring payment plan to auto-withdraw funds from an account you choose.

option
2

A budget can help you build a plan for your personal finances. There are many resources available to create a budget to help manage your finances while in school and beyond.

FEDERAL DIRECT LOANS

- The two most common types of Federal loans are **Federal Direct Subsidized** and **Federal Direct Unsubsidized loans**.

- 1 DIRECT SUBSIDIZED** – Under this loan, the federal government pays interest while you are enrolled in school and during your six-month grace period.
- 2 DIRECT UNSUBSIDIZED** – In addition to the loan amount, the borrower is responsible for the interest during the life of the loan.

Both loans have the same fixed interest rate. A **fixed interest rate** means the interest rate on this individual loan cannot change for the life of the loan. [Interest](#) rates may be different on loans taken in different years. Interest is the percentage of the unpaid principal amount that accrues (accumulates) every day!

There are annual and lifetime limits to the amount of federal loans you may borrow.

ADDITIONAL INFORMATION ABOUT STUDENT LOANS:

- Loans will typically disburse one time per semester. A disbursement is the payout of the loan amount that is expected to be applied to your student account to pay for your direct charges. These funds are generally requested 10 days after the start of your classes each semester and will post in your account within a few days.
- ***Outstanding financial aid documents or other needed items may delay disbursement. Always respond immediately to requests from Herzing University.***

DIRECT PLUS LOAN

Direct Plus Loans are federal loans that graduate or professional students and parents of dependent undergraduate students can use to help pay for college or career school.

One of the requirements to receive a Direct Plus loan is that you must not have an adverse credit history. However, you may still receive a Direct Plus Loan if you have an **endorser** (someone that does not have adverse credit and has agreed to pay the loan on your behalf) and/or documentation that supports extenuating circumstances.

For more information about eligibility requirements, visit <https://studentaid.gov/understand-aid/types/loans/plus>

REPAYMENT

- ▶ **There are multiple repayment options to fit your needs!** Repayment begins after you have used up any available grace period once you leave school or drop to a less than half-time enrollment status. A grace period is the amount of time during which you are not required to make payments, usually six months after you graduate or drop below half-time enrollment.

UNABLE TO MAKE PAYMENTS

If you are unable to make payments, immediately call us or work with your student loan servicer (the company that manages your student loans) to find the best option for your circumstances. There are options that will:

- **Postpone your payment**

Deferment – Loans can be deferred for 6 to 12 months based on circumstances such as military, economic hardship, unemployment, cancer diagnosis, etc. Interest does not accrue.

Forbearance – Borrowers are given up to 36 months of forbearance during the life of the loan. You are still responsible for the interest while in forbearance. Interest will accrue and is added to the loan balance.

- **Lower your payment**

Income Driven Repayment Plans are based on no more than 20% of your discretionary income and family size. This amount is calculated based on the poverty guideline in your state. Payments can be as low as zero dollars and should never exceed the standard repayment amount. You will recertify yearly for this repayment plan.

- **Standard Repayment and additional payment information:**

You are automatically placed in a standard 10-year repayment plan, unless you select another option that works better for you.

WHO MANAGES YOUR LOANS

If you borrow federal student loans, they will be repaid to the Department of Education servicer. Review the Student Loan Servicers List for your servicer's contact information.
