

S.A.F.E. Campus Procedures

Herzing University is practicing S.A.F.E. Education through the following procedures to keep our students, faculty and staff safe – thank you to everyone doing their part!

S

Screening

- Health Screening for students and employees
 - Screen at home – If your temperature is above 100.4 do not come to campus
 - Complete health survey at sparrow.org/OccHealthScreening and show your green check mark before you go to your lab
 - All individuals will have their temperatures taken each time they arrive on campus

A

Access

- Limited access during campus hours
 - Access limited to just lab times
 - Restricted entrance locations

F

Face Covering and PPE

- All individuals are required to wear a mask, which will be provided for anyone not having one
- Gloves required in labs
- Ample supplies of soap, hand sanitizer, and disinfectant wipes are available

E

Enhanced Safety Measures

- Social distancing protocols
- Students required to train in small groups are being partnered with the same individuals to minimize exposure to others
- Monitored number of people on campus
- Enhanced cleaning protocols
- Entrance doors and restrooms are designated for those entering buildings to minimize the number of surfaces touched
- Water fountains and unnecessary seating arrangements will not be available
- Food service remains closed
